All closures will be in place between 9pm and 6am.

Diversions

For closures between the Hinksey Hill junction and the Peartree Interchange all traffic will be diverted via the Oxford ring-road.

For closures between the Milton Interchange and Botley Interchange standard traffic will be diverted via the A417, Wantage, A338 and A420 (southbound diversion the same in

reverse). Heavy Goods vehicles will be diverted via the A420 between Oxford and Swindon due to unsuitability through Wantage.

For closures between the M4/Chieveley and the Milton Interchange standard traffic will be diverted via A4, A338, Wantage and A417 (southbound diversion the same in reverse). Heavy Goods vehicles will be diverted via the A420 between Oxford and Swindon due to unsuitability through Wantage.

Please be aware that these works have been carefully programmed but are subject to change due to weather conditions or unforeseen circumstances – **please check the yellow signs placed in advance at the junction for confirmation of the closures dates/timings.**
